About

Neting Institute

Neting Institute offers a unique competitive advantage through our comprehensive approach to personalized learning, leveraging latest technology, experienced instructors, and real-world practical training to deliver tailored solutions that empower our clients to achieve their desired outcomes. With over 14 years of experience in South Eastern Europe, Neting has been constantly growing its state-of-the-art delivery portfolio of pre-school education, adult entrepreneurship-related training, and eldercare programs.

Neting Institute prides itself on a comprehensive approach to personalized learning, leveraging the latest technology, experienced instructors, and practical, real-world training. This approach allows the institute to deliver tailored solutions that empower clients to achieve their desired outcomes. The institute's commitment to quality is demonstrated by its adherence to ISO 9001:2015 and 21001:2018 standards, ensuring its products and services consistently meet or exceed customer expectations.

The institute is dedicated to continually improving its processes and services to enhance customer satisfaction. Over the years, Neting Institute has established numerous partnerships with training centers, universities, municipalities, institutions, and various non-governmental associations. These collaborations have enabled the institute to work on a wide range of projects and activities, further enriching its offerings and impact. Collaborating with these organizations has provided Neting Institute with access to their expertise and resources, as well as their certification programs, which have enhanced the skills and knowledge of its customers.

Neting Institute has successfully implemented joint projects with prestigious organizations such as UNDP, USAID, GIZ, the Fund for Innovation and Technology Development of North Macedonia (FITD), the Employment Agency of North Macedonia, the Pension and Disability Insurance Fund of North Macedonia, and South Eastern European University (SEEU).

Neting Institute

is **Acredited by:**

THROUGH THESE PARTNERSHIPS, THE INSTITUTE HAS DELIVERED THOUSANDS OF COURSES, CONTRIBUTING TO THE PROFESSIONAL AND PERSONAL GROWTH OF ITS CLIENTS.

At Neting Institute, the mission is to provide top-notch education and training that empowers individuals to succeed in their personal and professional lives. The institute is committed to fostering a learning environment that is innovative, inclusive, and impactful.

MISSION

Driven by our passion for excellence, we aim to offer exceptional education and skills development, empowering individuals to achieve their personal and professional potential through exceptional learning opportunities.

VISION

Become the leading provider of high-quality and innovative training solutions in the EMEA region. We strive to empower individuals and organizations to reach their full potential by delivering customized training programs that are tailored to their unique needs and challenges. We are committed to excellence, integrity, and continuous improvement, and we aim to be the trusted partner of choice for all training and development needs in the EMEA region.

CORE VALUES

Innovation: We foster a culture of creativity and continuous improvement, encouraging new ideas and approaches to achieve excellence.

Collaboration: We believe in the power of teamwork and partnership, working together to achieve common goals and create positive impacts.

Excellence: We strive for excellence in everything we do, maintaining a commitment to quality and the pursuit of knowledge.

Inclusivity: We embrace diversity and inclusivity, ensuring a welcoming and supportive environment for all individuals.

Empowerment: We empower individuals through education and resources, fostering personal and professional growth.

COURSES

Our massive pool of specialists can offer you access to in-depth skilled content provided in a manner that suits you best, as either strategic programs or short certified courses. With over fifty scheduled session's on-the-spot across different fields and communication in several languages, we tend to assist your business follow the most recent trends and keep competitive on the market.

Introduction

DIGITAL MARKETING SPECIALIST ACADEMY

THE DIGITAL MARKETING COURSE dives deeply into the fast-evolving world of online marketing, offering the knowledge and skills necessary to thrive as a versatile digital marketing expert. This course is perfect for both newcomers and seasoned marketers looking to expand their expertise, as it provides hands-on, practical training in all the major digital marketing channels and tactics.

By mastering key areas like social media management, advertising, SEO, analytics, and more, candidates will develop the in-demand skills that employers are actively seeking. Through interactive exercises, case studies based on real-world scenarios, and expert mentorship, candidates will become proficient with the most widely-used tools and platforms in the digital marketing space.

Upon completing the program, the candidates will be equipped to craft and manage effective digital marketing strategies that foster meaningful connections between businesses and their audiences while driving measurable results. Additionally, candidates will be ready to step into roles such as Social Media Manager, SEO Specialist, Digital Strategist, or Email Marketing Coordinator, among others, setting the stage for career advancement in this dynamic field.

Course Module

- Introduction to Digital Marketing
- Integrated Marketing Communications
- Digital Marketing Strategy
- Social Media Management (Facebook, Instagram, Twitter)
- Social Media Advertising (Facebook & Instagram Ads)
- Google Ads
- Marketing Analytics (Google Analytics)
- Search Engine Optimization
- Lead Generation
- E-mail marketing
- Content marketing

CERTIFICATION DETAILS

Credential Awarded: Digital Marketing Professional Certification – DMPC
Platform: Delivered via Certiprof
Exam Duration: 60 minutes
Number of Questions: 40
Passing Score: 32/40 or 80%

PECB CERTIFIED ISO/IEC 27001 LEAD AUDITOR

THE PECB ISO/IEC 27001 LEAD AUDITOR TRAINING COURSE is designed to prepare candidates to audit an information security management system (ISMS) based on ISO/IEC 27001. During this training course, candidates will acquire the knowledge and skills to plan and carry out internal and external audits in compliance with ISO 19011 and the ISO/IEC 17021-1 certification process.

The training content is comprised of practical exercises and case studies that provide real-world expertise, which can be applied to day-to-day operations and activities. Based on practical exercises, candidates will master audit techniques and become competent in managing an audit program, audit team, communication with customers, and conflict resolution. Our training courses are all-inclusive, covering everything necessary to obtain the certification.

Course Module

- Fundamental principles and concepts of Information Security Management System (ISMS)
- Information Security Management System (ISMS)
- Fundamental audit concepts and principles
- Preparation of an ISO/IEC 27001 audit
- Conducting an ISO/IEC 27001 audit
- Closing an ISO/IEC 27001 audit
- Managing an ISO/IEC 27001 audit program

CERTIFICATION DETAILS

Credential Awarded: PECB Certified ISO/IEC 27001 Lead Auditor
Exam Number: ISO 27001 LA
Platform: Delivered via PECB Platform
Exam Duration: 3 hours
Number of Questions: 80
Passing Score: 70%

AUTODESK 3DS MAX: CREATE MASSIVE WORLDS ANDHIGH-QUALITY DESIGNS

This course on **AUTODESK 3DS MAX** introduces candidates to the fundamentals of 3D modeling and animation, focusing on essential skills such as scene management, creating and editing polygon-based-models, and applying UVW mapping techniques. Students will also learn rigging techniques, animation workflows, and how to work with lighting, cameras, and materials.

Throughout the course, participants will gain hands-on experience with keyframe animation, shading, and rendering, preparing them for real-world applications in 3D design and animation. By the end, candidates will have built a strong foundation in 3D modeling, ready for entry-level roles in the industry.

- Scene Management
- Modeling
- UVW Coordinates
- Materials / Shading
- Rigging
- Cameras
- Animation
- Lighting
- Rendering

Course Module

CERTIFICATION DETAILS

Credential Awarded: Autodesk 3ds Max:
Create massive worlds and high-quality designs
Platform: Delivered via Autodesk
Exam Duration: 50 minutes
Number of Questions: 30-35

AUTODESK CERTIFIED PROFESSIONAL IN AUTOCAD FOR DESIGN AND DRAFTING

THE AUTODESK CERTIFIED PROFESSIONAL (ACP) CERTIFICATION is designed for candidates who have advanced skills and can solve complex challenges in production workflows and designs. This type of experience typically comes from having worked with AutoCAD on a regular basis for at least two years, which is equivalent to approximately 400 hours (minimum) to 1,200 hours (recommended). Candidates who obtain this certification will have demonstrated a comprehensive skill set and proficiency in creating and completing 2D design sets by leveraging AutoCADbased applications, including AutoCAD LT. Earning this certification can help differentiate candidates in the job market by validating their knowledge, skills, and abilities in relevant AutoCAD disciplines, processes, and design.

Course Module

- Draw and Modify Objects
- Draw with Accuracy
- Basic Editing
- Annotation
- Layouts and Printing

CERTIFICATION DETAILS

Credential Awarded: Autodesk Certified Professional in AutoCAD for Design and Drafting
Platform: Delivered via Autodesk
Exam Duration: 50 minutes
Number of Questions: 30-35

GRAPHIC DESIGN ACADEMY

THE GRAPHIC DESIGN COURSE is an in-depth program designed to equip the candidates with the creative and technical skills needed to excel in the ever-evolving field of visual communication. Whether the candidates are just starting out or looking to elevate the existing design skills, this course offers a blend of theory and practical experience to build a strong foundation in graphic design. The candidates will explore core design principles that drive successful visual projects, including composition, color theory, typography, and branding.

Throughout the course, the candidates will work hands-on with industry-standard software and tools that are essential for modern designers. The curriculum is carefully structured to balance creativity with technical proficiency, guiding the candidates through the design process from concept development to execution. Emphasis is placed on fostering creative thinking and problem-solving abilities, allowing the candidates to approach design challenges with confidence and innovation.

By the time the course is completed, a versatile range of skills will have been cultivated, applicable across multiple facets of graphic design, from print and digital media to branding and beyond. Additionally, a deeper understanding of the creative industry will be gained, with the ability to visually communicate ideas with clarity and impact, while adapting to the diverse demands of clients and audiences. This course is ideal for those looking to begin a career in graphic design or refine their expertise as creative professionals.

Course Module

- Introduction to Graphic Design
- Adobe Illustrator
- Adobe Photoshop
- Adobe InDesign
- Logo Design
- Layout Design (book design, publishing, magazine, cover, flyer/brochure)
- Poster Design
- Packaging Design (seal, compensation, cliché, resources)
- Creative Thinking
- UX/UI Design

CERTIFICATION DETAILS

Credential Awarded: Graphic Design Professional Certification – GDPC
Platform: Delivered via Neting Institute
Exam Duration: 90 minutes
Number of Questions: 50
Passing Score: 70%

GRAPHIC DESIGN AND ILLUSTRATION USING ADOBE ILLUSTRATOR CC (2018)

This comprehensive course is designed for individuals aiming to master graphic design and illustration using Adobe Illustrator CC (2018). The curriculum covers critical concepts related to graphic design, project setup, visual element creation, and publishing digital media. Upon completion, the candidates will be prepared to earn the Adobe Certified Professional credential in Graphic Design and Illustration using Adobe Illustrator.

Course Module

- Introduction to the Design Industry
- Project Setup and Interface Navigation
- Managing Documents and Layers
- Creating and Modifying Visual Elements
- Working with Text and Typography
- Selections, Transformations, and Adjustments
- Using Brushes, Symbols, and Patterns
- Applying Effects and Graphic Styles
- Color Management and Gradients
- Exporting and Publishing Digital Media

CERTIFICATION DETAILS

Credential Awarded: Adobe Certified Professional in Graphic Design and Illustration Using Adobe Illustrator
Exam Number: Adobe Illustrator CC (2018) Certification Exam
Platform: Delivered via Certiport
Exam Duration: 50 minutes
Number of Questions: 30-35 & Selective Response and Live-in-the-Application & 53 Multiple Choice

EC-COUNCIL CERTIFIED **CYBERSECURITY TECHNICIAN (C|CT)**

EC-COUNCIL'S C|CT CERTIFICATION immerses candidates in well-constructed knowledge transfer. Training is accompanied by critical thinking challenges and immersive lab experiences that allow candidates to apply their knowledge and move into the skill development phase in the class itself. Upon completing the program, C|CT-certified professionals will have a strong foundation in cybersecurity principles and techniques as well as hands-on exposure to the tasks required in real-world jobs.

Course Module

- Information Security Threats and Vulnerabilities
- Information Security Attacks
- Network Security Fundamentals
- Identification, Authentication, and Authorization
- Network Security Controls – Administrative Controls
- Network Security Controls – Physical Controls
- Network Security Controls – Technical Controls
- Network Security Assessment Techniques and Tools
- Application Security
- Virtualization and Cloud Computing
- Wireless Network Security
- Mobile Device Security
- IoT and OT Security
- Cryptography
- Data Security
- Network Troubleshooting
- Network Traffic Monitoring
- Network Logs Monitoring and Analysis
- Incident Response
- Computer Forensics
- Business Continuity and Disaster Recoveries
- Risk Management

CERTIFICATION DETAILS

Credential Awarded: Certified Cyber Security Technician
Exam Number: 212-82
Platform: Delivered via EC-Council
Exam Duration: 3 hours
Number of Questions: 60
Passing Score: 60% to 85%

EC-Council

CERTIFIED ETHICAL HACKER

THE CERTIFIED ETHICAL HACKER PROGRAM provides the tools and techniques used by hackers and information security professionals alike to break into any computer system. This course immerses the candidates in a "Hacker Mindset" to teach you how to think like a hacker and better defend against future attacks.

Training focuses on creative hacking techniques to achieve optimal information security posture in any target organization! The candidates will learn how to scan, test, hack and secure target systems. The course covers the Five Phases of Ethical Hacking, diving into Reconnaissance, Gaining Access, Enumeration, Maintaining Access, and covering your tracks.

Course Module

- Introduction to Ethical Hacking
- Footprinting and Reconnaissance
- Scanning Networks
- Enumeration
- Vulnerability Analysis
- System Hacking
- Malware Threats
- Sniffing
- Social Engineering
- Denial-of-Service
- Session Hijacking
- Evading IDS, Firewalls, and Honeypots
- Hacking Web Servers
- Hacking Web Applications
- SQL Injection
- Hacking Wireless Networks
- Hacking Mobile Platforms
- IoT and OT Hacking
- Cloud Computing
- Cryptography

CERTIFICATION DETAILS

Credential Awarded: Certified Ethical Hacker
Exam Number: 312-50 (ECC EXAM), 312-50 (VUE)
Platform: Delivered via EC-Council
Exam Duration: 4 hours
Number of Questions: 125
Passing Score: 60% to 85%

EC-Council

CERTIFIED ETHICAL HACKER MASTER

THE CERTIFIED ETHICAL HACKER PROGRAM provides the tools and techniques used by hackers and information security professionals alike to break into any computer system. This course immerses the candidates in a "Hacker Mindset" to teach you how to think like a hacker and better defend against future attacks.

Training focuses on creative hacking techniques to achieve optimal information security posture in any target organization! The candidates will learn how to scan, test, hack and secure target systems. The course covers the Five Phases of Ethical Hacking, diving into Reconnaissance, Gaining Access, Enumeration, Maintaining Access, and covering your tracks.

To earn the CEH Master designation, candidates must successfully demonstrate their knowledge of Ethical Hacking through two distinct proving grounds. First, candidates must attempt and pass the Certified Ethical Hacker (C|EH) exam. After completing this step, they can proceed to the second part of earning the Certified Ethical Hacker Master designation by passing the C|EH Practical Exam.

Course Module

- Introduction to Ethical Hacking
- Footprinting and Reconnaissance
- Scanning Networks
- Enumeration
- Vulnerability Analysis
- System Hacking
- Malware Threats
- Sniffing
- Social Engineering
- Denial-of-Service
- Session Hijacking
- Evading IDS, Firewalls, and Honeypots
- Hacking Web Servers
- Hacking Web Applications
- SQL Injection
- Hacking Wireless Networks
- Hacking Mobile Platforms
- IoT and OT Hacking
- Cloud Computing
- Cryptography

CERTIFICATION DETAILS

Credential Awarded: Certified Ethical Hacker (Practical)
Exam Number: 312-50 (ECC EXAM), 312-50 (VUE)
Platform: Delivered via EC-Council
Exam Duration: 6 hours
Number of Questions: 20
Passing Score: 60% to 85%

EC-Council

EC-COUNCIL CERTIFIED INCIDENT HANDLER

E|CIH is a method-driven program that uses a holistic approach to cover vast concepts concerning organizational IH&R, from preparing/planning the incident handling response process to recovering organizational assets after a security incident. These concepts are essential for handling and responding to security incidents to protect organizations from future threats or attacks.

The E|CIH program addresses all stages involved in the IH&R process, and this attention toward a realistic and futuristic approach makes E|CIH one of the most comprehensive IH&R-related certifications in the market today.

Course Module

- Introduction to Incident Handling and Response
- Incident Handling and Response Process
- First Response
- Handling and Responding to Malware Incidents
- Handling and Responding to Email Security Incidents
- Handling and Responding to Network Security Incidents
- Handling and Responding to Web Application Security Incidents
- Handling and Responding to Cloud Security Incidents
- Handling and Responding to Insider Threats
- Handling and Responding to Endpoint Security Incidents

CERTIFICATION DETAILS

Credential Awarded: EC-Council Certified Incident Handler
Exam Number: 212-89
Platform: Delivered via EC-Council
Exam Duration: 3 hours
Number of Questions: 100
Passing Score: 60% to 85%.

EC-Council

EC-COUNCIL CERTIFIED NETWORK DEFENDER

CERTIFIED NETWORK DEFENDER (CND) is a vendor-neutral, hands-on, instructor-led comprehensive network security certification training program. It is a skills-based, lab intensive program based on a job-task analysis and cybersecurity education framework presented by the National Initiative of Cybersecurity Education(NICE). The course has also been mapped to global job roles and responsibilities and the Department of defense(DoD) job roles for system/network administrators. The course is designed and developed after extensive market research and surveys.

The program prepares network administrators on network security technologies and operations to attain Defense-in-Depth network security preparedness. It covers the protect, detect and respond approach to network security. The course contains hands-on labs, based on major network security tools and techniques which will provide network administrators real world expertise on current network security technologies and protection tools. The kit also contains templates for various network policies and a large number of white papers for additional learning.

Course Module

- Network Attacks and Defense Strategies
- Administrative Network Security
- Technical Network Security
- Network Perimeter Security
- Endpoint Security – Windows Systems
- Endpoint Security – Linux Systems
- Endpoint Security – Mobile Devices
- Endpoint Security – IoT Devices
- Administrative Application Security
- Data Security
- Enterprise Virtual Network Security
- Enterprise Cloud Security
- Enterprise Wireless Network Security
- Network Traffic Monitoring and Analysis
- Network Logs Monitoring and Analysis
- Incident Response and Forensics Investigation
- Business Continuity and Disaster Recovery
- Risk Anticipation with Risk Management
- Threat Assessment with Attack Surface Analysis
- Threat Prediction with Cyber Threat Intelligence

CERTIFICATION DETAILS

Credential Awarded: Certified Network Defender
Exam Number: 312-38
Platform: Delivered via EC-Council
Exam Duration: 4 hours
Number of Questions: 100
Passing Score: 60% to 85%

EC-Council

CERTIFIED SOC ANALYST V1 (CSA)

THE CERTIFIED SOC ANALYST (C|SA) PROGRAM is the first step to joining a security operations center (SOC). It is engineered for current and aspiring Tier I and Tier II SOC analysts to achieve proficiency in performing entry-level and intermediate-level operations.

C|SA certification is a training and credentialing program that helps the candidate acquire trending and in-demand technical skills through instruction by some of the most experienced trainers in the industry. The program focuses on creating new career opportunities through extensive, meticulous knowledge with enhanced level capabilities for dynamically contributing to a SOC team. Being an intense 3-day program, it thoroughly covers the fundamentals of SOC operations, before relaying the knowledge of log management and correlation, SIEM deployment, advanced incident detection, and incident response. Additionally, the candidate will learn to manage various SOC processes and collaborate with CSIRT at the time of need.

Course Module

- Security Operations and Management
- Understanding Cyber Threats, IoCs, and Attack Methodology
- Incidents, Events, and Logging
- Incident Detection with Security Information and Event Management (SIEM)
- Enhanced Incident Detection with Threat Intelligence
- Incident Response

CERTIFICATION DETAILS

Credential Awarded: Certified SOC Analyst
Exam Number: 312-39
Platform: Delivered via EC-Council
Exam Duration: 3 hours
Number of Questions: 100
Passing Score: 70%

EC-Council

WORDPRESS WEBSITE DEVELOPMENT

THE WORDPRESS WEBSITE DEVELOPMENT COURSE offers a comprehensive exploration of building and customizing WordPress websites from the ground up. Designed for both beginners and those looking to deepen their expertise, this course provides hands-on training across essential web development technologies and WordPress-specific skills.

The candidates will start with WordPress Admin basics, then advance through HTML/CSS for styling, JavaScript/jQuery/AJAX for interactivity, and PHP for server-side functionality. Learn MySQL for database management, and GIT for version control. Develop Custom WordPress Themes and Plugins to tailor your site's appearance and features, and master Advanced WordPress Admin tasks for enhanced management.

By the end, the candidates will be proficient in designing, developing, and maintaining sophisticated WordPress sites.

Course Module

- WordPress Admin
- HTML/CSS
- JavaScript/jQuery/AJAX
- PHP
- Databases (MySQL)
- GIT
- Custom WordPress Themes
- Custom WordPress Plugin
- Advanced WordPress Admin

CERTIFICATION DETAILS

Credential Awarded: WordPress Website Development Certification – WWDC
Exam Number:
Platform: Delivered via Neting Institute
Exam Duration: 90 minutes
Number of Questions: 60
Passing Score: 70%

WEB DEV ESSENTIALS: **HTML ESSENTIALS**

This course is designed to teach candidates the essential fundamentals of web development. Candidates will learn how to create, structure, and optimize web pages using HTML, the foundational language of the web.

This course aligns with the WDETM – Certified Entry-Level Web Developer certification offered by the JS Institute. This certification validates a candidate's foundational understanding and practical application of HTML, including document structure, text formatting, multimedia integration, basic web form creation, and an introduction to web accessibility. It showcases the ability to construct functional, user-centric web pages that are optimized for various devices and screen sizes.

By achieving the WDE certification, candidates will validate their problem-solving skills, particularly in identifying and correcting common HTML errors and implementing responsive design adjustments. This foundational knowledge primes candidates for advanced studies, aligning with industry best practices that emphasize optimization, responsive design, and user-centered development.

Course Module

- Getting started with HTML
- Formatting Text and Organizing Data
- Exploring Visual and Interactive Elements
- Enhancing Web Presentation
- Building Optimized and Accessible Web Content
- Exploring HTML Beyond Basics

CERTIFICATION DETAILS

Credential Awarded: WDE™ – Certified Entry-Level Web Developer
Exam Number: WDE-40-01
Platform: Delivered via OpenEDG (Javascript Institute)
Exam Duration: 45 minutes
Number of Questions: 40
Passing Score: 75%

OPENEDG EDUCATION PARTNER

WEB DEV ESSENTIALS: **CSS ESSENTIALS**

This course is designed to teach candidates the essential fundamentals of CSS for web development. Candidates will learn how to style, structure, and optimize web pages using CSS, enhancing the visual appeal and functionality of your websites.

It aligns with the WDATM – Certified Associate Web Developer certification offered by the JS Institute. This certification validates a candidate's proficiency in CSS, showcasing the ability to create visually appealing, responsive, and user-centric web pages.

Throughout the course, a solid foundation of knowledge and skills will be built, setting candidates on the path to success in web development.

- CSS Basics
- Properties and Values
- The Box Model
- Floats and Media Queries
- Flexbox and CSS Grid
- Transitions, Interactivity, and Animations
- Bootstrap
- Sass and Less
- Accessibility

Course Module

CERTIFICATION DETAILS

Credential Awarded: WDA – Certified Associate Web Developer.
Exam Number: WDA-41-01
Platform: Delivered via OpenEDG (Javascript Institute)
Exam Duration: 45 minutes
Number of Questions: 40
Passing Score: 75%

OPENEDG EDUCATION PARTNER

JAVASCRIPT ESSENTIALS 1 (JSE-40-01)

This course is the first in the JavaScript Essentials two-course series, designed to prepare candidates for the JSE – Certified JavaScript Entry-Level Programmer certification exam.

The main goal of the course is to guide candidates from a state of complete programming illiteracy to a level of programming knowledge that allows them to design, write, debug, and run programs encoded in the JavaScript language, and to understand the basic concepts of software development technology.

The course will prepare candidates for jobs and careers related to software development, including not only creating code as junior developers but also computer systems design and software testing.

Course Module

- Introduction to JavaScript and Computer Programming
- Variables, Data Types, Type Casting, and Comments
- Operators and User Interaction
- Control Flow-Conditional Execution and Loops Functions
- Errors, exceptions, debugging, and troubleshooting

CERTIFICATION DETAILS

Credential Awarded: JSE – Certified Entry-Level JavaScript Programmer
Exam Number: JSE-40-01
Target Audience: Javascript Developers
Platform: Delivered via OpenEDG (Javascript Institute)
Exam Duration: 30 minutes
Number of Questions:
Passing Score: 70%
Digital Badge: JavaScript Essentials

JAVASCRIPT ESSENTIALS 2 (JSA-41-01)

This course is the second in a 2-course series, designed to prepare candidates for the JSA – Certified Associate JavaScript Programmer certification exam from the JS Institute.

This course provides candidates with the opportunity to dive deeper into JavaScript programming, learning how to analyze and model real-world problems in terms of object-oriented programming (OOP), and explore more advanced techniques using functions, including but not limited to elements of asynchronous programming.

The course will prepare candidates for entry-level jobs and careers related to development, including junior front-end development positions focused on building and designing simple programs, junior back-end development roles centered around designing and building simple back-end programs, and junior tester roles associated with unit and integration testing.

Course Module

- Classless objects
- Classless objects: Classes and class-based approach
- Built-in objects
- Advanced function usage

CERTIFICATION DETAILS

Credential Awarded: JSA – Certified Associate JavaScript Programmer
Exam Number: JSA-41-01
Platform: Delivered via OpenEDG (Javascript Institute)
Exam Duration: 65 minutes
Number of Questions: 40
Passing Score: 70%

JAVA SE 11 CERTIFICATION 1Z0-819

Being a Professional Java Developer, means you have the skills covered in both exams – Java SE 11 Programmer I and Java SE 11 Programmer II. The Java Developer certification at Oracle has always been to present the full stable of skills and knowledge through the Oracle Certified Professional credential.

The Programming I course and Java SE 11 Programmer I exam focus on fundamental Java topics that lay the foundation for a Java Developer job role.

The Programming II course and Java SE 11 Programmer II exam provide more-advanced layers of detail on previous topics and go into new advanced topics such as lambdas and modularity

Course Module

- Working with Java Data Types
- Controlling Program Flow
- Java Object-Oriented Approach
- Exception Handling
- Working with Arrays and Collections
- Working with Streams and Lambda Expressions
- Java Platform Module System
- Concurrency
- Java I/O AP
- Secure Coding in Java SE Application
- Database Applications with JDBC
- Localization
- Annotations

CERTIFICATION DETAILS

Credential Awarded: Oracle Certified Professional Java SE 11 Developer
Exam Number: 1Z0-819
Target Audience: Java Developers
Platform: Delivered via Oracle
Exam Duration: 90 minutes
Number of Questions: 50
Passing Score: 68%
Digital Badge: 2019 Oracle Certified Professional Java SE 11 Developer

PYTHON ESSENTIALS 1 (ALIGNED WITH PCEP-30-02)

This course is the first in a 2-course series - it will prepare candidates for the PCEP – Certified Entry-Level Python Programmer certification exam (PCEP-30-01).

The main goal of the course is to guide candidates from a state of complete programming illiteracy to a level of programming knowledge which allows candidates to design, write, debug, and run programs encoded in the Python language, and to understand the basic concepts of software development technology.

The course will prepare candidates for entry-level jobs and careers connected with widely understood software development, which includes not only creating the code itself as a junior developer, but also computer systems design and software testing.

Course Module

- Introduction to Python and computer programming
- Data types, variables, basic input-output operations, and basic operators
- Boolean values, conditional execution, loops, lists and list processing, logical and bitwise operations
- Functions, tuples, dictionaries, exceptions, and data processing

CERTIFICATION DETAILS

Credential Awarded: PCEP – Certified Entry-Level Python Programmer
Exam Number: PCEP-30-02
Platform: Delivered via OpenEDG (Python Institute)
Exam Duration: 40 minutes
Number of Questions: 30
Passing Score: 70%

PYTHON ESSENTIALS 2 (ALIGNED WITH PCAP-31-03)

This course is the second in a 2-course series - it will prepare the candidates for the PCAP: Certified Associate in Python Programming certification exam (PCAP-31-03) available via Pearson VUE Test Centers or OnVUE Online Proctoring service from Pearson VUE.

The course picks up where Python Essentials 1 leaves off. Its main goal is to teach candidates the skills related to the more advanced aspects of Python programming, including modules, packages, exceptions, file processing,as well as with general coding techniques and object-oriented programming (OOP).

The course is recommended for aspiring developers who are interested in pursuing careers connected with Software Development, and Security, Networking, and the Internet of Things (IoT).

Course Module

- Modules, Packages and PIP
- Strings, string and list methods, and exceptions
- Object-Oriented Programming
- Miscellaneous (generators, iterators, closures, file streams, processing text and binary files, the os, time, datetime, and calendar module)

CERTIFICATION DETAILS

Credential Awarded: PCAP – Certified Associate Python Programmer
Exam Number: PCAP-31-03
Platform: Delivered via OpenEDG (Python Institute)
Exam Duration: 65 minutes
Number of Questions: 40
Passing Score: 70%

BASIC **ENGLISH A1**

Course Summary

The purpose of this course is to provide the participants a solid introduction to the structure of the language, gradually building students' understanding of basic grammar, equipping them with key vocabulary, and giving them skills with simple social situations.

This course is designed to be very flexible, and is adapted to suit the specific needs of the participants.

Target Audience

This course is for adult learners who are looking to develop their skills in Basic English.

Course Objectives and Learning Outcome

- Understand the basic everyday expressions;
- Engage in simple oral and written communication in order to provide and obtain information;
- Construct very basic and simple sentences;
- Demonstrate limited control of essential grammatical structure.

BY THE END OF THE COURSE, THE PARTICIPANTS WILL BE ABLE TO:

- Communicate in everyday situations with commonly used expressions and elementary vocabulary.
- Introduce themselves and others and can ask and answer questions about personal details such as where they live, people they know and things they have.
- Interact in a simple way provided the other person talks slowly and clearly and is prepared to help.

Teaching Methodology

Basic English learners are exposed to authentic virtual materials. Reading texts and excerpts are selected from actual materials that learners will encounter on a daily basis. The materials presented cover a variety of vocabulary areas for beginners.

Examination/Certification

The participants' performance will be based on midterm and final exams in comprehension and usage, writing, speaking and continuous assessment through the progress testing. The participants will receive a certificate for successful completion of the course issued by Neting Training Institute.

10.	CLIL	12h
11.	Final Examination	2h
		120h

GERMAN LANGUAGE COURSE

Level **A1**
BASIC/BEGINNER

Course Objective: The German language course at level A1 is designed for beginners who have little to no prior knowledge of the German language. Participants will be immersed in an interactive learning environment where they will acquire basic language skills. This includes understanding and using simple expressions commonly used in everyday situations, such as introductions, food and drink, shopping, ordering at a restaurant, professions, directions, and more. Participants will learn basic grammar rules, vocabulary, and pronunciation. The course focuses on the four key skills: listening, speaking, reading, and writing. Through practical exercises and dialogues, participants will be able to engage in simple conversations in German and communicate in everyday situations. The goal of the course is to build participants' confidence and communication skills.

Duration: **120 hours**
Exam Information:
Goethe/ÖSD
Exam Duration:
90 minutes
Passing Score: **60/100**

Who Should Attend?

1. Absolute beginners - individuals with no prior knowledge of the language.
2. Individuals with minimal knowledge - those who may have very limited language skills but cannot communicate effectively.
3. Anyone interested - people who want to learn a new language from scratch for personal, professional, or academic reasons.

Level **A2**

Course Objective: The German language course at level A2 is intended for those who have completed level A1 and wish to deepen their knowledge of German. Participants will build on the foundations laid in level A1 and further develop their language skills. They will learn to use more complex expressions and communicate with greater confidence in everyday situations. The course focuses on the four key skills: listening, speaking, reading, and writing. Participants will acquire a richer vocabulary, improve their grammar, and practice using the language in various contexts, such as describing personal experiences, giving directions, and discussing familiar topics. The goal of the course is to equip participants with more advanced skills to use German in different daily and professional situations.

Duration: **120 hours**
Exam Information:
Goethe/ÖSD
Exam Duration:
90 minutes
Passing Score: **60/100**

Who Should Attend?

1. Those who have completed level A1 - students who have mastered the basics and are ready to advance further.
2. Individuals with basic language skills - those who can understand and use simple phrases in German and want to further develop their abilities.
3. Those who wish to improve their communication skills - people who want to communicate more freely and confidently in everyday situations and in the workplace.

Level B1

Course Objective: The German language course at level B1 is aimed at those who have reached an intermediate level in German and wish to further improve their language skills. Participants will develop the ability to communicate effectively in more complex everyday and professional situations. The course focuses on improving the four key skills: listening, speaking, reading, and writing. Participants will work on expanding their vocabulary, using more advanced grammatical structures, and developing the skills to express thoughts, feelings, and opinions in German. Through practical exercises, they will be able to engage in deeper discussions and handle various topics with greater confidence.

Duration: **120 hours**
Exam Information:**Goethe/ÖSD**
Exam Duration: **90 minutes**
Passing Score:
Listening: **60/100**
Writing: **60/100**
Reading: **60/100**
Speaking: **60/100**

Who Should Attend?

1. Those who have completed level A2 - students with a strong foundation in Germanready to move to an intermediate level.
2. Individuals with intermediate language skills - those who can understand and express themselves in familiar situations but need to improve fluency and accuracy in speaking and writing.
3. Those who wish to use German in professional settings - individuals who need to communicate in German at work or in formal situations and want to further develop their language skills.

Level B2

Course Objective: The German language course at level B2 is designed for those who have reached an upper-intermediate level and wish to further develop their language skills to communicate with fluency and accuracy. Participants will improve their ability to understand and use German in more sophisticated contexts and for a wider range of topics, both in daily life and professionally. The course focuses on advancing the four key skills: listening, speaking, reading, and writing. Participants will work on developing advanced vocabulary, using complex grammatical structures, and the ability to discuss intricate topics, express arguments, and support their views. Participants will achieve more fluent communication and be prepared to use German in various situations, including academic and professional environments.

Duration: **120 hours**
Exam Information:**Goethe/ÖSD**
Exam Duration: **90 minutes**
Passing Score:
Listening: **60/100**
Writing: **60/100**
Reading: **60/100**
